The increased fully franked Q3 FY2026 Dividend and the progressive quarterly dividend policy are important initiatives to add shareholder value as they increase the amount and frequency of dividends and provide shareholders with dividends sooner than would otherwise be the case.

The Company's Dividend Reinvestment Plan (**DRP**) will be in operation for the fully franked Q3 FY2026 Dividend of 2.21 cents per share and the DRP continues to have strong support from shareholders. Shares issued under the DRP for the dividend will be issued at a 3% discount to WQG's volume weighted average share price in accordance with the DRP Rules.

Shareholders who wish to participate in the DRP for the Q3 FY2026 Dividend must elect to do so before the DRP election date of **Tuesday, 16 June 2026** by:

- making an election online via the share registry at www.mpms.mufg.com/en/mufg-corporate-markets/;
or
- completing a personalised election form which will be mailed to investors shortly and return it to the share registry.

All the Directors intend to participate in the DRP for the Q3 FY2026 Dividend with respect to their own shareholdings and recommend that shareholders consider the opportunity to participate in the DRP³.

Strong Investment Performance

The long-term performance of the Company's investment portfolio remains strong. Since inception in June 2017 to 31 March 2026, the WQG portfolio has returned 14.68% per annum after fees compared with the Benchmark, MSCI All-Country World Index (ex. Australia), of 12.45%. This is consistent with the longer-term performance of the WCM Quality Global Growth Strategy, on which WQG's portfolio is based, which has returned 14.06% per annum since inception in 2008.

Since listing on the ASX in June 2017, the Company's underlying portfolio, assuming an initial base value of \$10,000, has grown to \$33,278 as at 31 March 2026, as shown in the chart below.

Data as at 31 March 2026 in AUD. Value presented based on the portfolio return in AUD and calculated before expenses and taxes and after investment management and performance fees. Portfolio value includes the reinvestment of dividends and income. Past performance is not indicative of future results.

The continued strong investment performance since inception is a direct reflection of both the quality and expertise of WCM and its unique investment strategy: WCM believes the direction of a company's economic moat is of more importance than its absolute width or size, and corporate culture is the biggest influence on a company's ability to grow its competitive advantage or 'moat'.
